

PUKKA

Pukka is our newest project in the new capital. The project is built on 40 acres. It consists of 43 buildings and 2500 unit. Our ultra-modern architectural design will not only influence the way people live in our community but the way Egyptians live in our country. What makes Pukka unique is the prime location, green areas, event lounge, swimming pools, clubhouse, solar system panels, pet care service, premium mall, health club, spa and a food court.
